CERTIFICATIONS

- AWS Certified Cloud Practitioner | December 2024
- Professional Scrum Master™ I (PSM I) | Scrum.org | November 2024
- Certified Entry-Level Python Programmer (PCEP) | OpenEDG Python Institute | February 2024
- Certified Ethical Hacker (CEH) | EC-Council | January 2023
- Mulesoft Certified Developer | Mulesoft | May 2021
- Workshop - Rapid Web App Development with Python and Django | ESTSETÚBAL/IPS | July 2018
- Mass Training in Basic Life Support | Segurex-INEM | May 2015

EDUCATION

Bachelor's Degree in Computer Engineering
Instituto Politécnico de Setúbal
2016 - 2021

PROFILE

Solution-oriented programmer skilled in full-stack development and API engineering with robust experience in REST, with more focus on Front-end. Passionate about technology, prioritizing continuous learning, and teamwork. Proactive in problem-solving and search for greater knowledge and technical proficiency in Angular, TypeScript, JavaScript, Python, Java, API management tools and UI/UX Design.

WORK EXPERIENCE

Associate Software Engineer

Capgemini October 2024 - Present

- Currently working on a major modernization initiative for a leading banking client. The project involves transitioning from legacy systems to a microservices-based architecture, focusing on scalability, security, and performance improvement.
- As a Frontend Developer, I developed secure, high-performance, and intuitive interfaces using Angular/TypeScript, PrimeNG, and Tailwind CSS/UI.
- Ensured code quality with ESLint and test coverage with Jasmine, and integrated services via OpenAPI.
- Collaborated with backend teams (Java/Python), aligning JSON/YAML contracts and ensuring API integration.
- Used Git, Git Bash, GitHub, and GitHub Copilot to accelerate development and optimize branch management. I performed code reviews on the work delivered by the rest of the team, ensuring quality, consistency, and best practices.
- Supported cloud deployments on Microsoft Azure that manages cloud infrastructure, whereas Docker containerizes apps.
- Maintained an efficient development workflow in Visual Studio Code.
- Operated within a Scrum environment, participating in sprint ceremonies (planning, daily, review, retrospective), maintaining documentation and reports, and ensuring consistent and reliable deliverables.
- Keycloak is used for user authentication and authorization.

Experienced Programmer

Deloitte September 2022 - January 2024

- Developed, enhanced, and troubleshot REST for an automotive client (Stellantis), leveraging tools such as Mulesoft, Maven, JSON, YAML, XML, Postman and RabbitMQ.
- Optimized client modules within Salesforce CRM and PostgreSQL, significantly enhancing customer and aftersales processes.
- Employed Coralogix and Kibana to monitor API logs and improve overall system performance, identifying and resolving key bottlenecks.
- Coordinated across teams to address critical issues swiftly, contributing to improved client satisfaction and project efficiency.

Junior Programmer

Deloitte April 2021 - September 2022

- Supported API development and debugging processes in collaboration with senior developers, honing foundational skills in code review, GitHub version control, and Jira task management.
- Contributed to a structured and efficient development environment by adopting best practices in code management and task prioritization.

CORE COMPETENCIES

Programming & Frameworks

- Angular, TypeScript, HTML, CSS, Tailwind, Python, React.js, JavaScript, Node.js, Java, JQuery, Django, XML, JSON, YAML, OpenApi/Swagger.

Tools & Platforms

- Maven, PrimeNG, Bootstrap, Github Copilot, Git/Github, Git Bash, Jenkins, Docker, Kubernetes, Salesforce, Google Cloud Platform, PostgreSQL, SQL Server, MySQL, MongoDB, Firebase, RabbitMQ, Coralogix, Kibana.

Professional Skills

- Organization, Leadership, Time Management, Team Collaboration, Quick Learning, Proactivity.

INTERESTS

Sports Enthusiast

- Regularly engage in sports, which reinforce strategic thinking, discipline, and teamwork.

Programming & Tech Exploration

- Enthusiastic about experimenting with new languages and technologies, focusing on self-improvement and staying current with tech trends.

BRUNO CARVALHO

DEVELOPER

SUMMARY

Starting with a Bachelor's Degree in Computer Engineering, professional certifications, and over three years of experience in API development, system optimization, and cross-functional collaboration. I am now fully focused and bring one and a half years of hands-on experience in front-end development, which has strengthened my technical abilities and reinforced my commitment to delivering high-quality, user-centric solutions. I am confident in my ability to contribute meaningfully to your team.

At Deloitte, I honed my technical and problem-solving skills by developing and optimizing REST APIs for an automotive client (Stellantis). Utilizing tools such as Mulesoft, Maven, PostgreSQL, and Salesforce, I enhanced system modules, improved API performance, and resolved complex technical challenges. My ability to analyze API logs with tools like Coralogix and Kibana enabled me to identify bottlenecks, significantly boosting system efficiency. Collaborating with cross-functional teams, I consistently delivered solutions that exceeded expectations.

I bring more than just technical knowledge. As a Certified Ethical Hacker (CEH), I possess a strong foundation in secure coding practices. Additionally, my certification as a Professional Scrum Master (PSM I) reflects my ability to support effective team coordination and project execution, ensuring timely delivery while fostering a culture of collaboration and continuous improvement.

What sets me apart is my passion for continuous learning and my proactive approach to problem-solving. Beyond my professional work, I regularly explore new programming languages and frameworks, staying current with emerging technologies. I also draw inspiration from my lifelong engagement with sports, which has instilled discipline, strategic thinking, and a team-oriented mindset.

At the moment, I work as a front-end developer using technologies like Angular, Tailwind, TypeScript, and Azure for a banking client.

I would welcome the opportunity to discuss how my skills and experiences align with your team's goals. Thank you for considering me.
